

AULIKA EVO

Description

The new Aulika Evo range is a perfect blend of modern, sophisticated design and sturdy, reliable technology.

The proven professional technical solutions of the Aulika range have been integrated by a new capacitive interface with backlit photo icons that offers a wide range of direct-to-touch beverages.

Additionally, the dispensing area of the various Aulika Evo models has been equipped with blue and white LED lights that turn on and off following the beverage preparation phases, providing a touch of elegance and sophistication.

Finally, the large capacity water and coffee tanks, the presence of double hydraulic circuit and features such as the High Speed Cappuccino (Top Model only) that reduces the time required for the preparation of milk-based beverages, ensure a reliable performance in high daily consumption locations.

Cleaning and maintaining for the Aulika Evo range are easy, thanks to the presence of a complete set of Maintenance Accessories supplied with the machines, including a water filter, lubricating grease and cleaning tablets for the brewing unit. Aulika Evo is the new Saeco range that satisfies the requirements of coffee professionals outside the home.

Main characteristics

- Backlit capacitive interface
- Photorealistic beverage icons
- New materials and finishes
- Dispenser bay lit by LED lights
- Maintenance Accessories Kit supplied
